What happened last year.

· Rough Year

- Issues with PhD,
- Felt emotionally, and physically ill and weak,
- Diagnosed with Depression and Anxiety,
- Most of the time
 - Reading obsessively (books, programming, motivation lectures),
 - Adjusting a broken sleep cycle,
 - Trying hard to keep myself motivated to work, and not quitting,
- Dilemma about the Channel
 - Should I drop the channel?
 - Struggling to good examples / time / motivation to finish playlists,
- Beating myself (figuratively) with too high standards
 - Wanted to learn animation, Web design, a musical instrument, and blog besides PhD, and Channel (I know I am crazy!)
 - Felt frustrated and sunk deeper into sadness because I could not do justice,

There is hope!

- Slowly taking steps to recover,
 - Seeking medical help
- Trying to engage physically
 - No significant physical activity for the past few years
- (Trying hard) adjusting my schedule,
- Being closer to family and friends, (Tried to distance them to solve the issues on my own – but it never helped!)
- (Again, trying hard in) Incorporating my crazy wishlist,

What you can see for the future years?

- Finish some of the existing playlists
- Planning for new programming playlists
 - HTML
 - CSS
 - JavaScript
- Planning for new non-programming playlists
 - Mathematics
 - Calculus
 - Linear Algebra
 - Numerical Methods
 - · Probability and Statistics
 - Physics
 - · University Physics,
 - Thermodynamics, Fluid Dynamics,

Thank you for the feedback!

- 23 responses!
- Good feedback from all of you!
- Will work on the feedback given.

 There is one more feedback link in the description! Please fill it! Would like to know about your views.

New Land Mark!

- Website coming soon!
 - Design stage nearing completion
 - Hosting plans under review
 - In my free-time, (if at all I get lol :D), I'll fill in the blogs and share my personal notes!
 - You can access them easily, along with my blogs and other fancy stuff (stay tuned!)
- Thinking of opening a Patreon Account to sustain my channel. (Leave your opinions, suggestions, in the comments!:))

Thank you all!

- Friends,
- Family,
- Mentor,
- Viewers and Subscribers! :)

Indirectly and directly, thanks to your support, I am persisting forward! Your support means a lot to me!
